OMAR REDA

Back-End | Node.js |MongoDB | Mongoose

Cairo, Egypt | omarredaa616@gmail.com | +201114594275 | linkedin.com/in/omar-reda-73356327a/

PROFESSIONAL SUMMARY

Backend Developer specializing in **Node.js**, with a strong focus on building scalable, secure, and high-performance server-side applications. Experienced in designing RESTful APIs, handling database integration, and implementing efficient business logic. Committed to writing clean, maintainable code and delivering reliable backend solutions that power seamless user experiences.

WORK EXPERIENCE

Freelance Back-end Developer

Remote **January 2025 – Present**

- Developed scalable and high-performance backend applications using **Node.js** and Express.js.
- Designed and implemented RESTful APIs to support dynamic, data-driven applications.
- Managed database operations, including schema design, queries, and optimization (MongoDB / SQL).
- Implemented authentication and authorization systems (JWT, role-based access control).
- Ensured application performance, security, and reliability through best practices and testing.
- Collaborated with frontend developers and clients to define requirements and deliver efficient backend solutions.
- Maintained and enhanced existing systems by debugging issues and improving performance.

EDUCATION

Bachelor of Computer and Information Science

Assuit University, Egypt **Graduated: 2024**

SKILLS

- **Backend Development:** Node.js, Express.js
- **Languages:** JavaScript (ES6+), TypeScript
- **API Development:** RESTful APIs, CRUD Operations, API Integration
- **Databases:** MongoDB, Mongoose, SQL (basic knowledge)
- **Authentication & Security:** JWT, Role-Based Access Control, Data Validation (Joi)
- **Architecture & Practices:** MVC Pattern, Clean Code, Error Handling
- **Performance Optimization:** Query Optimization, Caching Basics
- **Version Control:** Git, GitHub
- **Tools & Workflow:** Postman, ESLint, Prettier
- **Collaboration:** Agile Methodology, Trello

Projects

Perfume & Skincare Shop – Jan 2026

Back-End Developer
Developed a scalable e-commerce backend system with secure authentication and robust business logic. Implemented order processing, inventory management, and integrated payment workflows, along with an admin dashboard for full control over products and sales.

Tools & Technologies: Node.js, Express.js, TypeScript, REST APIs, Authentication (JWT), Database Management

Electronic Store– Jan 2025

Back-End Developer
Developed backend infrastructure for an online retail platform with multi-user roles, product management, and order handling. Integrated secure payment processing and built admin functionalities for managing store operations.

Tools & Technologies: Node.js, Express.js, SQL Server, REST APIs, Authentication, Payment Integration

Medi Mingle App– Jan 2024

Back-End Developer
Built a secure medical management backend handling patient data, appointment scheduling, and user workflows. Developed APIs for managing records, integrated payment systems, and supported an admin panel for efficient system operations.

Tools & Technologies: Node.js, Express.js, SQL Server, REST APIs, Authentication, Payment Integration
