PROFESSIONAL SUMMARY

Full Stack Developer specializing in building scalable, secure, and high-performance web applications using Node.js, React.js, Next.js, and Tailwind CSS. Experienced in developing end-to-end solutions, including designing RESTful APIs, managing database integration, and creating responsive, modern user interfaces. Skilled in both frontend and backend development, with a strong focus on clean architecture, maintainable code, and delivering seamless, high-quality user experiences.

WORK EXPERIENCE

Freelance Back-end Developer

Remote **January 2025 – Present**

- Developed scalable and high-performance web applications using Node.js, Express.js, React.js, Next.js, and Tailwind CSS.
- Designed and implemented RESTful APIs to support dynamic, data-driven applications.
- Built responsive and user-friendly frontend interfaces with modern UI/UX practices.
- Managed database operations, including schema design, queries, and optimization (MongoDB / SQL).
- Implemented authentication and authorization systems (JWT, role-based access control).
- Ensured application performance, security, and reliability through best practices and testing.
- Collaborated with clients to define requirements and deliver complete end-to-end solutions.
- Maintained and enhanced existing systems by debugging issues, improving performance, and optimizing both frontend and backend.

EDUCATION

Bachelor of Computer and Information Science

Assuit University, Egypt **Graduated: 2024**

SKILLS

- **Frontend Development:** React.js, Next.js, Tailwind CSS
- **Backend Development:** Node.js, Express.js
- **Languages:** JavaScript (ES6+), TypeScript
- **API Development:** RESTful APIs, CRUD Operations, API Integration
- **Databases:** MongoDB, Mongoose, SQL (basic knowledge)
- **Authentication & Security:** JWT, Role-Based Access Control, Data Validation (Joi)
- **Architecture & Practices:** MVC Pattern, Clean Code, Error Handling
- **Performance Optimization:** Query Optimization, Caching Basics
- **Version Control:** Git, GitHub

• **Tools & Workflow:** Postman, ESLint, Prettier
• **Collaboration:** Agile Methodology, Trello

Projects

Perfume & Skincare Shop – Jan 2026

Full Stack Developer
Developed a scalable e-commerce platform with secure authentication and robust business logic. Built a modern, responsive frontend using React.js, Next.js, and Tailwind CSS, along with a powerful backend for order processing, inventory management, and payment workflows. Implemented an admin dashboard for full control over products and sales.
Tools & Technologies: Node.js, Express.js, TypeScript, React.js, Next.js, Tailwind CSS, REST APIs, JWT Authentication, Database Management

Electronic Store– Jan 2025

Full Stack Developer
Developed a complete online retail platform with multi-user roles, product management, and order handling. Designed and implemented both frontend interfaces and backend services, including secure payment integration and admin functionalities for managing store operations.
Tools & Technologies: Node.js, Express.js, React.js, Tailwind CSS, SQL Server, REST APIs, Authentication, Payment Integration

Medi Mingle App– Jan 2024

Full Stack Developer
Built a secure medical management system with features for patient data handling, appointment scheduling, and user workflows. Developed APIs and created a user-friendly interface, along with an admin panel for efficient system operations and payment integration.
Tools & Technologies: Node.js, Express.js, React.js, Tailwind CSS, SQL Server, REST APIs, Authentication, Payment Integration
