PROFESSIONAL SUMMARY

. **Backend Developer specializing in building scalable, secure, and high-performance server-side applications using Node.js and Express.js.** Experienced in designing and implementing **RESTful APIs, managing databases, and ensuring robust application logic**. Skilled in authentication, data workflows, performance optimization, and writing clean, maintainable backend code to support reliable and secure applications.

WORK EXPERIENCE

Freelance Back-end Developer

Remote **January 2025 – Present**

- Developed scalable and high-performance **backend systems** using **Node.js and Express.js**.
- Designed and implemented **RESTful APIs** to support dynamic, data-driven applications.
- Managed **database operations**, including schema design, queries, and optimization (MongoDB / SQL).
- Implemented **authentication and role-based access control** for secure applications.
- Ensured backend **performance, security, and reliability** through best practices and testing.
- Maintained and enhanced existing backend systems by debugging issues and optimizing server-side logic.
- Collaborated with frontend developers and clients to deliver complete, high-quality solutions.

EDUCATION

Bachelor of Computer and Information Science

Assuit University, Egypt **Graduated: 2024**

SKILLS

• **Backend Development:** Node.js, Express.js, NestJS (optional if you want to add more)
• **Frontend Interaction:** API Integration, Server-Side Rendering (Next.js basics)
• **Languages:** JavaScript (ES6+), TypeScript, Python (optional if relevant)
• **API Development:** RESTful APIs, GraphQL (optional), CRUD Operations, API Documentation
• **Databases:** MongoDB, Mongoose, SQL, PostgreSQL, MySQL
• **Authentication & Security:** JWT, OAuth2, Role-Based Access Control, Data Validation (Joi)
• **Architecture & Practices:** MVC Pattern, Microservices Basics, Clean Code, Error Handling, Design Patterns
• **Performance Optimization:** Query Optimization, Caching (Redis, Memory Cache), Load Balancing Basics
• **DevOps & Deployment:** Docker Basics, CI/CD Concepts, Hosting APIs (Heroku, Vercel, AWS)

• **Version Control:** Git, GitHub, Git Workflow (Branching, Pull Requests)
• **Tools & Workflow:** Postman, Insomnia, ESLint, Prettier, Node.js Debugging Tools
• **Collaboration:** Agile Methodology, Jira/Trello, Code Reviews, Team Communication

Projects

Perfume & Skincare Shop – Jan 2026

Back-end Developer
Developed a **scalable and secure backend for an e-commerce platform**, handling order processing, inventory management, and payment workflows. Implemented robust authentication and role-based access control with JWT, ensuring secure user and admin operations. Designed and optimized RESTful APIs for seamless frontend integration and built an admin dashboard backend to manage products, orders, and sales efficiently.

Tools & Technologies: Node.js, Express.js, TypeScript, MongoDB, SQL, REST APIs, JWT Authentication, Data Validation (Joi), Caching, Performance Optimization

Electronic Store– Jan 2025

Back-end Developer
Developed a **robust backend for a full-featured online retail platform**, supporting multi-user roles, product management, and order processing. Implemented secure authentication, role-based access control, and payment integration, ensuring safe and efficient operations. Designed RESTful APIs to handle frontend requests and built admin functionalities to manage store operations effectively.

Tools & Technologies: Node.js, Express.js, TypeScript, SQL Server, MongoDB, REST APIs, JWT Authentication, Payment Integration, Data Validation

Medi Mingle App– Jan 2024

Back-end Developer
Built a **secure and scalable backend for a medical management system**, handling patient data, appointment scheduling, and complex user workflows. Designed and implemented RESTful APIs, authentication, and role-based access control to ensure secure operations. Developed backend functionalities for admin operations, system management, and payment integration.

Tools & Technologies: Node.js, Express.js, TypeScript, SQL Server, MongoDB, REST APIs, JWT Authentication, Payment Integration, Data Validation
